EDUCATION

G.L.A University

B.Tech in Computer Science and Engineering, CGPA: 9.08

Mathura, UP

Aug 2024 – May 2028

St. Joseph's Convent School

Intermediate, Percentage: 80.2%

Varanasi, UP

2023

St. Joseph's Convent School

High School, Percentage: 92.5%

Varanasi, UP

2021

EXPERIENCE

Collaborative Project

Feb 2026 – Present

Trailblazer | Go, REST APIs, ngrok, Git

- Led an open-source event-driven application that handles GitHub webhooks and constructs DAG-based pipelines in Go
- Built the preparation and edge computation layer responsible for structuring workflow nodes and directing execution flow
- Integrated ngrok-based local tunneling to enable live webhook testing against the testing service
- Coordinating with team members on API design and cross-service communication across a multi-repo architecture

Google Cloud Arcade Facilitator Program – Cohort 1

Apr 2025 – Jun 2025

Google Cloud Skills Boost

- Completed hands-on labs on Google Cloud Platform covering Cloud Computing
- Earned Google Cloud-hosted digital skill badges by solving real-world challenge labs with no guided steps
- Accumulated Arcade Points by completing games, trivia challenges, and skill badges across the program timeline
- Gained practical exposure to GCP services including Compute Engine, Cloud Storage, BigQuery, and Cloud Functions through structured lab-based learning

PROJECTS

AGITE | *Python, JavaScript, HTML/CSS*

Feb 2026 – Present

- Co-developed a general intelligence tiered environment featuring a decoupled frontend and a Python-based intelligence backend
- Designed the JavaScript/HTML frontend layer to interface with AI reasoning modules and display tiered output
- Structured the Python intelligence module to support modular, layered AI logic for extensible agent-like behavior

BookBot | *Python*

Feb 2026

- Built a CLI tool that reads plain-text books and generates a statistical report of word count and character frequency
- Designed modular, single-responsibility functions across separate files for parsing, counting, and report generation

COMPETITIVE PROGRAMMING

LeetCode | *Utkarsh_1771*

Solved 100+ problems across Easy, Medium, and Hard categories; focusing on DSA problem solving

Codeforces | *Utkarsh_1771*

Current rating: 900+ ; participating in rated contests to develop competitive programming skills

TECHNICAL SKILLS

Languages: Python, Go, C/C++, SQL, Java

Development Tools: Git, Docker, NeoVim, Ubuntu Linux, Bash

Cloud: Google Cloud Platform (GCP), Cloud Skills Boost
